

The GGP's stride to enhancing its societal value

Professor Anne H. Gauthier

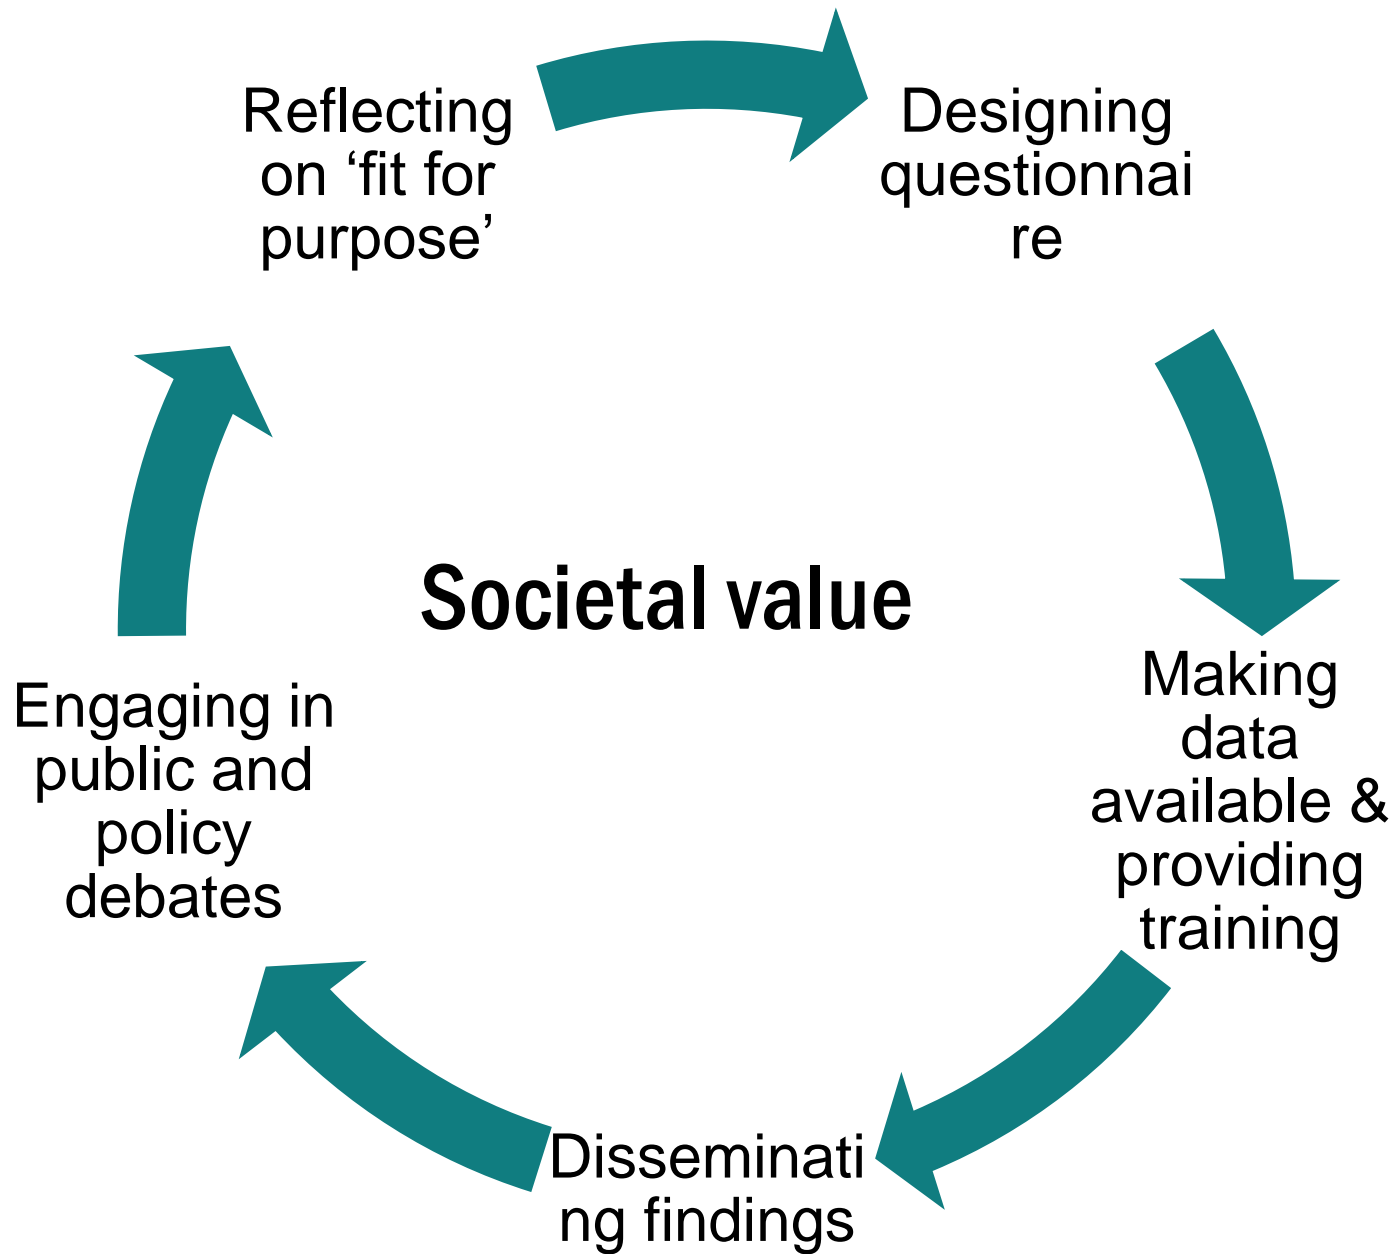

4th International Conference
on Research Infrastructures | ICRI 2018
Vienna, 12 - 14 September 2018

The Generations and Gender Programme

Key Themes

Examples of activities to enhance our societal value

1. Data visualisation
2. Evidence-informed policies and debates
3. Teaching and training

Examples

1. Data visualisation

Example: Marital Status at First Birth

Age: 16.5

Slow **Medium** Fast

In this GGS data visualisation you see the changes in partnership status at the moment of the birth of the first child across three cohorts in Sweden (Source: GGS Sweden 2012).

1942-1946
With Child 0%

1958-1962
<1%

1973-1977
0%

Married

Cohabiting

Single

Childless

Policy Brief No. 13
November 2017

Population Europe

THE NETWORK OF EUROPE'S LEADING
DEMOGRAPHIC RESEARCH CENTRES

Becoming an Adult in Europe

It's time to provide more cross-sectorial support to young people

Key messages:

- Policy proposals for young Europeans should be based on a life course perspective. Challenges faced by individuals should be seen as a consequence of a series of intertwined life events that occur within particular policy, socio-economic and cultural contexts.
- Independence in young adulthood should be viewed as a multi-dimensional concept, which includes residential, economic and psychological independence.
- Securing employment for young people should remain a top priority on the European policy agenda. However, stable and well-paid jobs, and income protection should be promoted equally.

Authors:

Ann Berrington
Francesco C. Billari
Olivier Thévenon
Daniela Vono de Vilhena

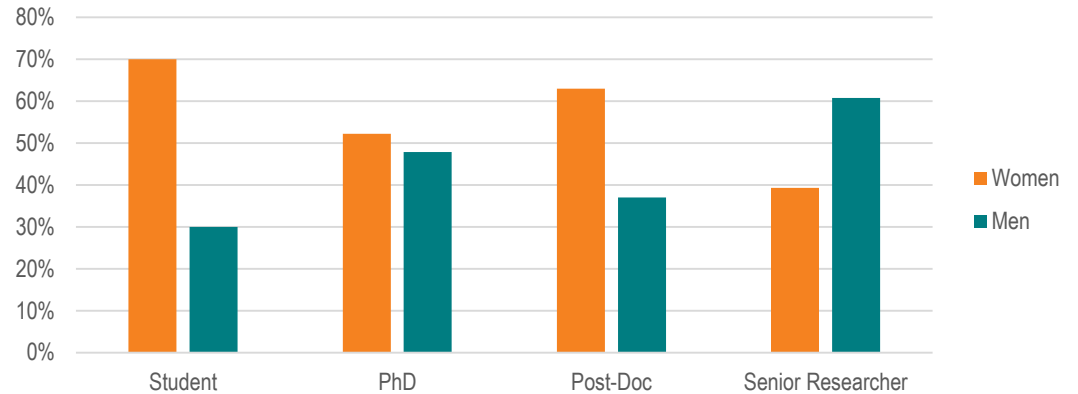

Figure 1 - Users by Gender & Seniority

Reflections

- Does it work? What can we do further?

Reflections

1. Strong central hub (leadership and resources)
2. Multi-channels and collaboration with partners
3. Societal value at all stages of the data life cycle

A dark teal background featuring a faint, light-colored world map. The map shows the outlines of continents and countries, with a slightly darker shade of teal for the oceans. The text is overlaid on this background.

“The GGP has been an invaluable source of data, helping us understand family dynamics during a period of rapid social change. Research using the GGP has helped policy makers to understand this change and how best to respond.”

Professor Pearl Dykstra
European Commission
High Level Group of Scientific Advisors
